

What is Citrus Extra?

A fast-acting, biodegradable, pre-spray detergent, CITRUS EXTRA is designed for use on all types of washable carpet. CITRUS EXTRA is diluted and then sprayed directly onto the carpet. It is then extracted with clean water.

Key Benefits

- ✓ Safe to use on all washable carpets, even new stain-resistant nylons
- ✓ Excellent cleaning power
- ✓ Contains biodegradable surfactants, no added phosphates and environmentally preferable
- ✓ Conforms with AS3773 "Textile floor coverings – Cleaning maintenance techniques for domestic and commercial carpeting"

How Does It Work?

CITRUS EXTRA is based on natural orange oils which have a strong cleaning action and a pleasant fragrance. CITRUS EXTRA's excellent cleaning power provides great economy of use and does away with the need for detergent or additives in the solution tank or the feed lines of truck-mounted units. CITRUS EXTRA is a free rinsing cleaner, so after pre-spraying, one pass with water in the wand is all it takes to clean and revive the carpet. Being a low-alkaline pre-spray, CITRUS EXTRA is safe to use on carpets in trains, boats and planes and will not affect aluminium, fibreglass or painted surfaces. It is also less likely to cause skin irritations.

For Use On...

CITRUS EXTRA is designed for use on all types of carpet including hard to clean, low cost acrylics, new generation, stain resistant nylons and pure wool or wool blend carpets as well as Persian Rugs, bleeders and printed carpets. CITRUS EXTRA is diluted and then sprayed directly onto the carpet.

Technical Data

Composition

CITRUS EXTRA contains biodegradable surfactants that have been derived from naturally grown plant crops including sugar and coconuts. The formula also includes orange oils, citrates and stabilizers.

Properties

COLOUR – Yellow transparent liquid
ODOUR – Mild
pH = 9.75 ± 0.25 at a 1 in 20 Dilution
(10.0 – 10.8 as supplied)
FOAM – Low foam height

Environmental Care

CITRUS EXTRA conforms with all statutory environmental requirements. It is based on safe ingredients selected to perform efficiently so there is no waste or damage. CITRUS EXTRA is non-flammable, biodegradable, phosphate-free and based on renewable raw materials. CITRUS EXTRA containers will be cleaned and reused if returned to Agar Cleaning Systems, significantly reducing plastic usage and waste. They can also be recycled.

Colour Coding

Product identification is made easy with the Agar Colour Coding system. We have 11 different categories of product that are identified by colour and

number. The product itself has this colour. Also, the colour and number are shown:

1. On the bottle label as supplied.
2. On the matching Dispenser Spray Bottle.
3. On the product chart for Colour Coded Cleaning

This system has benefits of reducing the chance of using the wrong product, making compliance and staff training easy, showing that the correct products are being used and providing information about usage, dilution and first aid.

Product	Code Colour	Code Number	Type
CITRUS EXTRA	Beige	10	Carpet and Spot Cleaners

Quality

The design, manufacture and supply of all Agar chemical products is controlled by the Agar Quality Management System which is registered and externally audited by SAI Global as complying with the requirements of AS/NZS ISO 9001 "Quality Management Systems – Requirements".

First Certified: 3 30 April 1996 SAI Certificate No.: QEC7358

Application

Remove litter from carpet and vacuum if necessary. Move furniture or place foils under legs. Dilute CITRUS EXTRA as follows and spray directly onto the carpet then extract the solution with a wet-vacuum wand:

Light to Medium soilage:

- Dilute to 1 in 30 parts water.

Heavy soilage:

- Dilute to 1 in 20 parts water.

Extraction after applying:

- Do not add any chemical to the extraction tank. Use only warm water and extract the carpet after a dwell time of 3-5 minutes (55°C for stain-resistant carpets and 70-75° for all others. Cold water may be used satisfactorily if warm water is not available.)
- Avoid over wetting the carpet. Allow carpet to dry as quickly as possible, provide ventilation where possible.

Disposal Information

1. Used solutions -

Used Solutions of CITRUS EXTRA should be poured into a drain or trough that leads to the sewer system or a septic tank. These systems have a method for treating and breaking down the waste. Used solutions of detergent should not be poured into stormwater drains or down driveways as these drains are designed for rainwater and ultimately lead to the local river system.

2. Unused product

It is best to keep the product and use it up! If this is not possible, try to give it to someone who can use it. (Make sure the product is in its original, labelled container).

If there is no alternative but disposal, it is safe to pour modest quantities of this product down the drain (to sewer) with running water. Leave the cold tap running for a few moments afterwards as this dilutes the product and reduces the concentration in the wastewater.

Remember, do not mix different cleaning products together during disposal!

3. Empty packaging

Bottles and drums

Our 5L and 20L bottles and drums are made from HDPE (polyethylene) or PET which can be recycled. You can dispose of these containers via the kerbside collection program or other recycling system. CITRUS EXTRA containers will be cleaned and reused if returned to Agar Cleaning Systems Pty Ltd, significantly reducing plastic usage and waste.

Cardboard cartons

Used boxes should be flattened and recycled in OCC (old, corrugated cardboard) or mixed wastepaper recycling programs.

Available in: 5L, 20L

Dispensing Accessories:

500ml Colour-coded Printed Dispenser Bottle – Code D10

Trigger 500ml Bottle Plain Blue/White – Code DTR

Hand Pump for 5L Bottle (30ml/Stroke) – Code DHP30

Hand Pump for 20L Drum (30ml/stroke) – Code DHP20

Tap in Cap 5L – Code DTC5

20L Drum Tap – Code DTAP

Tap in Cap 20L – Code DTC20
