

## What is CleanSave 1?

A powerful, perfumed all-purpose detergent for cleaning floors and all hard washable surfaces. It blasts away dirt, spillages, food residues, smoke films and oily spots from floors, walls, benches and painted surfaces. It is ideal for cleaning floors sealed with Agar floor polishes.

CLEANSAVE 1 is a part of the CleanSave Closed Loop Chemical and Dispensing System which prevents cleaners from having contact with the concentrated chemicals.

## CleanSave Range

CLEANSAVE is a range of performance driven, concentrated chemicals that are supplied in tamper-proof packaging for dispensing automatic dilution systems. Each convenient 2.4L bottle comes fitted with a safety insert that stops cleaners from being able to access the concentrate. The products can only be diluted through dispensers which provides complete control over dilution, stopping over-dosing and product wastage and improving safety.

## Key Benefits

- ✓ Highly concentrated to get more out of each bottle
- ✓ Prevents over-dosing or spillage which reduces product wastage
- ✓ Has a powerful cleaning action
- ✓ Low-alkaline and aggressive on dirt
- ✓ Provides control over dilution
- ✓ Rapidly removes soilage
- ✓ Colour and number coded for ease of use and safety
- ✓ Environmentally preferable, contains biodegradable surfactants and no added phosphates
- ✓ Concentrated products are made with less water which reduces packaging, transport and storage requirements

## How Does It Work?

This highly active cleaner with deodorant action suspends dirt and soil so it won't redeposit onto floor, does not need rinsing from floors, and will not harm alkali-sensitive finishes.

## For Use On...

CLEANSAVE 1 will remove all dirt and spillages including foodstuffs, drinks and cooking oils and general traffic dirt from floors and walls. It cleans waxed and polished floors, walls, glass, terrazzo, marble, slate, and other surfaces needing a low-alkaline cleaner. Use by mop, sponge or autoscrubber. CLEANSE 1 is an excellent scrub-back detergent for polished floors when used at stronger concentrations.

## Technical Data

### Properties

COLOUR – Transparent pink liquid  
 ODOUR – Floral perfume  
 pH = 10.5 – 12.0  
 FOAM – Low to medium foam height, suitable for autoscrubbers, mopping and manual scrubbing.

### Environmental Care

CLEANSAVE 1 conforms with all statutory environmental requirements. It is based on safe ingredients selected to perform efficiently so there is no waste or damage. CLEANSE 1 is non-flammable and non-caustic. CLEANSE 1 contains biodegradable surfactants. CLEANSE 1 containers can also be recycled.

## Colour Coding

Product identification is made easy with the Agar Colour Coding system. We have 11 different categories of product that are identified by colour and number. The product itself has this colour. Also, the colour and number are shown:

1. On the bottle label as supplied.
2. On the matching Dispenser Spray Bottle.
3. On the product chart for Colour Coded Cleaning

This system has benefits of reducing the chance of using the wrong product, making compliance and staff training easy, showing that the correct products are being used and providing information about usage, dilution and first aid.

Product	Code Colour	Code Number	Type
CLEANSAVE 1	Pink	1	All Purpose and Floor Cleaners

## Quality

The design, manufacture and supply of all Agar chemical products is controlled by the Agar Quality Management System which is registered and externally audited by SAI Global as complying with the requirements of AS/NZS ISO 9001 "Quality Management Systems – Requirements".

First Certified: 30 April 1996 SAI Certificate No.: QEC7358

## Application

The ready-to-use solution of CLEANSAVE 1 is available from your Agar Detergent Dispenser for either bottle fill or bucket fill. Simply select the product and push the button while holding the hose in your bottle or bucket.

Apply the solution to the area being cleaned with either an autoscrubber, mop or sponge and scrub until clean. Rinse with water if required and allow it to dry.

## Disposal Information

### 1. Used solutions -

Used Solutions of CLEANSAVE 1 should be poured into a drain or trough that leads to the sewer system or a septic tank. These systems have a method for treating and breaking down the waste. Used solutions of detergent should not be poured into stormwater drains or down driveways as these drains are designed for rainwater and ultimately lead to the local river system. Although CLEANSAVE 1 has a low aquatic toxicity, detergents in general are not good for aquatic wildlife.

### 2. Unused product

It is best to keep the product and use it up! If this is not possible, try to give it to someone who can use it. (Make sure the product is in its original, labelled container).

If there is no alternative but disposal, it is safe to pour modest quantities of this product down the drain (to sewer) with running water. Leave the cold tap running for a few moments afterwards as this dilutes the product and reduces the concentration in the wastewater.

Remember, do not mix different cleaning products together during disposal!

### 3. Empty packaging

#### Bottles and drums

Our 2.5L and 5L bottles and drums are made from HDPE (polyethylene) or PET which can be recycled. You can dispose of these containers via the kerbside collection program or other recycling system. CLEANSAVE 1 containers will be cleaned and reused if returned to Agar Cleaning Systems Pty Ltd, significantly reducing plastic usage and waste.

#### Cardboard cartons

Our cartons contain a minimum of 70% of recycled cardboard and/or paper. Used boxes should be flattened and recycled in OCC (old, corrugated cardboard) or mixed wastepaper recycling programs.

Available in: 2.4L

Agar Cleaning Systems maintains Safety Data Sheets (SDS) on all its products. These sheets contain information that you may need to protect your employees and customers against health or safety hazards associated with our product. Agar Cleaning Systems recommends that you obtain a copy of the respective SDS sheet prior to using this product. The information in the Product Data Sheet is based on data we believe to be reliable. It is offered in good faith, but without guarantee, as conditions and methods of use of our product are beyond our control.
