

What is CleanSave 4S?

CLEANSAVE 4S is a GECA certified all-in-one washroom cleaner concentrate that blasts away bathroom scum on toilet, showers, floors, walls, basins and fixtures. It will deodorise and leave a fresh lime fragrance.

CLEANSAVE 4S is a part of the CLEANSEAVE Closed Loop Chemical and Dispensing System which prevents cleaners from having contact with the concentrated chemicals.

CleanSave Range

CLEANSAVE is a range of performance driven, concentrated chemicals that are supplied in tamper-proof packaging for dispensing automatic dilution systems. Each convenient 2.4L bottle comes fitted with a safety insert that stops cleaners from being able to access the concentrate. The products can only be diluted through dispensers which provides complete control over dilution, stopping over-dosing and product wastage and improving safety.

Key Benefits

- ✓ Highly concentrated to get more out of each bottle
- ✓ Prevents over-dosing or spillage which reduces product wastage
- ✓ Has a powerful cleaning action
- ✓ Low-alkaline and aggressive on dirt
- ✓ Provides control over dilution
- ✓ Rapidly removes soilage
- ✓ Colour and number coded for ease of use and safety
- ✓ Environmentally preferable, contains biodegradable surfactants and no added phosphates
- ✓ Concentrated products are made with less water which reduces packaging, transport and storage requirements

How Does It Work?

CLEANSAVE 4S is an all-purpose washroom cleaner. It is a forceful cleaner of toilets, urinals and showers, washroom floors, walls, basins and fixtures. CLEANSEAVE 4S will easily dissolve rust, lime, bio-waste, urine, hard surface scale, soap and fat scum on all washroom surfaces, yet it will not harm Stainless Steel, porcelain, ceramic or glass even during periods of prolonged contact (NOTE: Do not use any acidic products on marble or terrazzo).

For Use On...

CLEANSAVE 4S is a powerful detergent for toilets, showers and bathroom. It cleans and brightens porcelain, ceramic and stainless steel sinks, basins, urinals and toilet bowls.

Technical Data

Properties

COLOUR – Transparent Blue Liquid
 ODOUR – Lime perfume
 pH = 2.0 – 2.8
 FOAM – Thick foam, with good stability
 INGREDIENTS – All natural; from renewable resources

Please note: CLEANSEAVE 4S is not a disinfectant. Today, Hospital microbiologists agree that it is important to clean surfaces to prevent bacterial growth, thus reducing the need for disinfecting. Use CLEANSEAVE 4S to help prevent bacterial growth in the first place.

Environmental Care

CLEANSAVE 4S is a new-generation cleaning liquid made from ingredients that have been chosen to give the following properties:

- Contains Biodegradable surfactants
- Contains mild organic acid ingredients with no irritating fumes
- No added phosphates
- No chlorine
- Recyclable packaging

Colour Coding

Product identification is made easy with the Agar Colour Coding system. We have 11 different categories of product that are identified by colour and

number. The product itself has this colour. Also, the colour and number are shown:

1. On the bottle label as supplied.
2. On the matching Dispenser Spray Bottle.
3. On the product chart for Colour Coded Cleaning

This system has benefits of reducing the chance of using the wrong product, making compliance and staff training easy, showing that the correct products are being used and providing information about usage, dilution and first aid.

Product	Code Colour	Code Number	Type
CLEANSAVE 4S	Dark Blue	4	Toilet and Bathroom Cleaners

Quality

The design, manufacture and supply of all Agar chemical products is controlled by the Agar Quality Management System which is registered and externally audited by SAI Global as complying with the requirements of AS/NZS ISO 9001 "Quality Management Systems – Requirements".

First Certified: 30 April 1996 SAI Certificate No.: QEC7358

Application

The ready-to-use solution of CLEANSAVE 4S is available from your Agar Detergent Dispenser for either bottle fill or bucket fill. Simply select the product and push the button while holding the hose in your bottle or bucket.

Toilets and Urinals:

- Pour 60ml of the solution around the rim of the toilet bowl and allow it to run down, covering the whole bowl. Scrub with a nylon brush then flush after a few minutes.

Showers and Baths, Basins, Benches, Taps and Walls:

- Apply from the squeeze bottle or with a sponge. Scrub then rinse off after a few minutes.

Washroom Floors:

- Soak floor with solution for a few minutes, then mop clean. Do not use on marble or terrazzo.

Disposal Information

1. Used solutions -

Used Solutions of CLEANSAVE 4S should be poured into a drain or trough that leads to the sewer system or a septic tank. These systems have a method for treating and breaking down the waste. Used solutions of detergent should not be poured into stormwater drains or down driveways as these drains are designed for rainwater and ultimately lead to the local river system. Although CLEANSAVE 4S has a low aquatic toxicity, detergents in general are not good for aquatic wildlife.

2. Unused product

It is best to keep the product and use it up! If this is not possible, try to give it to someone who can use it. (Make sure the product is in its original, labelled container).

If there is no alternative but disposal, it is safe to pour modest quantities of this product down the drain (to sewer) with running water. Leave the cold tap running for a few moments afterwards as this dilutes the product and reduces the concentration in the wastewater.

Remember, do not mix different cleaning products together during disposal!

3. Empty packaging

Bottles and drums

Our 2.5L and 5L bottles and drums are made from HDPE (polyethylene) or PET which can be recycled. You can dispose of these containers via the kerbside collection program or other recycling system. CLEANSAVE 4S containers will be cleaned and reused if returned to Agar Cleaning Systems Pty Ltd, significantly reducing plastic usage and waste.

Cardboard cartons

Our cartons contain a minimum of 70% of recycled cardboard and/or paper. Used boxes should be flattened and recycled in OCC (old, corrugated cardboard) or mixed wastepaper recycling programs.

Available in: 2.4L
