

What is Lavender?

A strong odour-masking deodoriser, LAVENDER is formulated for washing and mopping heavily soiled floors and hard surfaces where a powerful residual perfume is desired.

Key Benefits

- ✓ Appealing popular fragrance
- ✓ Strong reodorant action
- ✓ Biodegradable detergent
- ✓ Odour-masking action which is excellent in problem areas

How Does It Work?

LAVENDER is a strong odour-masking detergent with the cleaning action needed to remove offensive and putrid soilage matter. It has a lavender perfume that has been selected to provide maximum lingering power.

For Use On...

LAVENDER is ideal for washing and mopping contaminated floors and hard surfaces including, polished floors, tiles, fittings, glass and walls.

LAVENDER is ideal for use as an air-freshener where a reodorant is required.

Technical Data

Composition

LAVENDER is formulated with premium surfactants which attack and disperse soilage matter and strong residual perfume oils that cling to surfaces and re-odourise throughout the day.

Properties

COLOUR – Transparent violet-coloured liquid
ODOUR – Strong lavender perfume
pH = 7 – 8
FOAM – High-foaming cleaning action

Environmental Care

LAVENDER conforms with all statutory environmental requirements. It is based on safe ingredients selected to perform efficiently so there is no waste or damage. LAVENDER is non-flammable, phosphate-free and biodegradable. LAVENDER containers will be cleaned and reused if returned to Agar Cleaning System, significantly reducing plastic usage and waste. They can also be recycled.

Colour Coding

Product identification is made easy with the Agar Colour Coding system. We have 11 different categories of product that are identified by colour and

number. The product itself has this colour. Also, the colour and number are shown:

1. On the bottle label as supplied.
2. On the matching Dispenser Spray Bottle.
3. On the product chart for Colour Coded Cleaning

This system has benefits of reducing the chance of using the wrong product, making compliance and staff training easy, showing that the correct products are being used and providing information about usage, dilution and first aid.

Product	Code Colour	Code Number	Type
LAVENDER	Dark blue	4	Toilet and bathroom cleaners

Quality

The design, manufacture and supply of all Agar chemical products is controlled by the Agar Quality Management System which is registered and externally audited by SAI Global as complying with the requirements of AS/NZS ISO 9001 "Quality Management Systems – Requirements".

First Certified: 3 30 April 1996 SAI Certificate No.: QEC7358

Application

Air Freshener:

Dilute to 1 in 10 with water and spray high into the room with a hand spraygun.

Floors, walls, fittings etc:

Use a concentration of 1 in 50-100 with water depending on soilage. Do not rinse washed surfaces.

Offensive and putrid odours:

Remove source of odour by flushing, rinsing or mopping with a solution of 1 in 10 with water. Do not rinse. For extreme odours, neat LAVENDER may be applied.

Disposal Information

1. Used solutions -

Used Solutions of LAVENDER should be poured into a drain or trough that leads to the sewer system or a septic tank. These systems have a method for treating and breaking down the waste. Used solutions of detergent should not be poured into stormwater drains or down driveways as these drains are designed for rainwater and ultimately lead to the local river system.

2. Unused product

It is best to keep the product and use it up! If this is not possible, try to give it to someone who can use it. (Make sure the product is in its original, labelled container).

If there is no alternative but disposal, it is safe to pour modest quantities of this product down the drain (to sewer) with running water. Leave the cold tap running for a few moments afterwards as this dilutes the product and reduces the concentration in the wastewater.

Remember, do not mix different cleaning products together during disposal!

3. Empty packaging

Bottles and drums

Our 5L and 20L bottles and drums are made from HDPE (polyethylene) or PET which can be recycled. You can dispose of these containers via the kerbside collection program or other recycling system. LAVENDER containers will be cleaned and reused if returned to Agar Cleaning Systems Pty Ltd, significantly reducing plastic usage and waste.

Cardboard cartons

Used boxes should be flattened and recycled in OCC (old, corrugated cardboard) or mixed wastepaper recycling programs.

Available in: 5L, 20L

Dispensing Accessories:

Colour-coded 500ml Spray Bottle – Code D06V

Trigger for 500ml Bottle Plain, Blue/White – Code DTR

Hand Pump for 5L Bottle (30ml/Stroke) – Code DHP30

Hand Pump for 20L Drum (30ml/stroke) – Code DHP20

Tap in Cap 5L – Code DTC5

20L Drum Tap – Code DTAP

Agar Cleaning Systems maintains Safety Data Sheets (SDS) on all its products. These sheets contain information that you may need to protect your employees and customers against health or safety hazards associated with our product. Agar Cleaning Systems recommends that you obtain a copy of the respective SDS sheet prior to using this product. The information in the Product Data Sheet is based on data we believe to be reliable. It is offered in good faith, but without guarantee, as conditions and methods of use of our product are beyond our control.
