

## What is Super Deo?

SUPER DEO is a powerful air freshener with a strong cleaning action. It provides a last fragrance that overcomes unpleasant odours.

### Key Benefits

- ✓ Perfume Concentrate
- ✓ Will outlast conventional re-odorant detergent
- ✓ Masks unpleasant odours, such as smoke and toilet

### How Does It Work?

SUPER DEO is a super strong perfume concentrate which is water based. It also contains surfactants making it an excellent detergent for hard surfaces.

### For Use On...

SUPER DEO is ideal for deodorizing washrooms, toilets, smoking areas and garbage storage areas. Its powerful perfume is very useful for cleaning up rooms that have been damaged by smoke (after fire) or floods (causing sewage spills). Garbage bins, chutes and dumpsters will benefit from being cleaned with SUPER DEO.

## Technical Data

### Properties

COLOUR – Clear, colourless liquid  
ODOUR – Strong floral/pot pourri fragrance  
pH = 6.5 ± 0.5  
FOAM – Moderate to High foam

### Environmental Care

SUPER DEO contains biodegradable surfactants. It conforms with all statutory environmental requirements. It is based on safe ingredients selected to perform efficiently so there is no waste or damage. SUPER DEO does NOT contain any alkyl phenol ethoxylates, phthalates, heavy metals, ozone depleting, substances, ammonia, amines, butyl solvents, ethylene glycol ether solvents, chlorine, or hydrocarbon solvents. SUPER DEO containers will be cleaned and reused if returned to Agar Cleaning Systems Pty Ltd., significantly reducing plastic usage and waste. The containers can also be recycled.

### Quality

The design, manufacture and supply of all Agar chemical products is controlled by the Agar Quality Management System which is registered and externally audited by SAI Global as complying with the requirements of AS/NZS ISO 9001 "Quality Management Systems – Requirements".

First Certified: 30 April 1996 SAI Certificate No.: QEC7358

## Application

- WEAR GLOVES: as with any other cleaning product, even those that are neutral, gloves must always be worn where ongoing skin contact is possible.
- For general cleaning of floors, walls and fittings – dilute to 1:50-100 with water.
- For air freshening or cleaning where there are bad odours – dilute to 1:10 and clean the surfaces with this solution. In extreme cases neat SUPER DEO may be used, but it should be rinsed down with hot water to remove detergent residues.
- Using a finger or trigger spray, apply a couple of squirts on the floor or wall behind the toilet and hear the urinal or basins to leave a lingering fragrance.
- Avoid spraying on floors where people walk or on any surfaces subject to skin contact.
- Apply strategically in other rooms, for example spray in opposite corners.
- A couple of squirts into a garbage bin will mask unpleasant odours.
- Note that a residue will exist for a couple of days but will gradually evaporate. This residue is necessary as it provides the perfume source.

## Disposal Information

### 1. Used solutions -

Used Solutions of SUPER DEO should be poured into a drain or trough that leads to the sewer system or a septic tank. These systems have a method for treating and breaking down the waste. Used solutions of detergent should not be poured into stormwater drains or down driveways as these drains are designed for rainwater and ultimately lead to the local river system.

### 2. Unused product

It is best to keep the product and use it up! If this is not possible, try to give it to someone who can use it. (Make sure the product is in its original, labelled container).

If there is no alternative but disposal, it is safe to pour modest quantities of this product down the drain (to sewer) with running water. Leave the cold tap running for a few moments afterwards as this dilutes the product and reduces the concentration in the wastewater.

Remember, do not mix different cleaning products together during disposal!

### 3. Empty packaging

#### Bottles and drums

Our 5L and 20L bottles and drums are made from HDPE (polyethylene) or PET which can be recycled. You can dispose of these containers via the kerbside collection program or other recycling system. SUPER DEO containers will be cleaned and reused if returned to Agar Cleaning Systems Pty Ltd, significantly reducing plastic usage and waste.

#### Cardboard cartons

Used boxes should be flattened and recycled in OCC (old, corrugated cardboard) or mixed wastepaper recycling programs.

Available in: 5L

Agar Cleaning Systems maintains Safety Data Sheets (SDS) on all its products. These sheets contain information that you may need to protect your employees and customers against health or safety hazards associated with our product. Agar Cleaning Systems recommends that you obtain a copy of the respective SDS sheet prior to using this product. The information in the Product Data Sheet is based on data we believe to be reliable. It is offered in good faith, but without guarantee, as conditions and methods of use of our product are beyond our control.
